SAMPLING QUICK DISCONNECTS (INTERCHANGABLE WITH FLIGHT REFUELING COUPLERS)

Made entirely of stainless steel, these couplers are fully interchangeable with Flight Refueling models, as well as those available from A. Searle & Co.. Because we make the caps of aluminum, there is no possibility of thread galling as in other brands when the coupler is also aluminum. We used the Gammon tapered gland O-ring seal principle that has proven to be astonishingly reliable for the last 50 years in the Jet Test QD®.

In addition to the two basic models, we also offer each one with either BSP or NPT threads for installation on fueling nozzles. Refer to the chart below.

MODEL No.	TEST FITTING CONNECTION	CAP CONNECTION	TYPE	O-RING
GTP-1206	3/8 BSPP	13/16-16 UN	Shell	Yes
GTP-1206-A	3/8 BSPP	1/2 BSPP	Shell	Yes
GTP-1397	3/8 NPT	3/4 BSPP	Air BP	No
GTP-2479	3/8 NPT	13/16-16 UN	Shell	Yes
GTP-2479-A	3/8 NPT	1/2 BSPP	Shell	Yes
GTP-2480	1/4 NPT	13/16-16 UN	Shell	Yes
GTP-2480-A	1/4 NPT	1/2 BSPP	Shell	Yes
GTP-2481	3/8 BSPP	3/4 BSPP	Air BP	No

NOTE: All BSPP models will be switched over to a blue anodized cap as soon as we deplete our inventory of the current gold anodized caps.
