

PROFESSIONAL FILTRATION BATTERY PRODUCTION

HiFlux Auto-line® filters are specially designed for automatic filtration of chemicals in battery productions.

World leading company producing customized industrial filter solutions. Increased security, production and better profitability.

HiFlux Filtration A/S

About the Auto-line® Automatic filter:

Installed at some of the biggest manufacturers of batteries.

Before installation:

Cleaning manual filters regularly, high maintenance costs, downtime in production.

After installation:

Automatic process, increased productivity, minimal maintenance, no production stops.

Facts for the Auto-line® Automatic filter

HiFlux Auto-line® Filter has been designed as a compact, self-cleaning filter. The sturdy construction of the filter makes it well suited for applications in which operational reliability and dependability are essential.

Accurate filtration down to 30 micrometers [μm].

FEATURES

- **Removes unwanted particles**
High operational reliability.
- **Minimize maintenance**
Increased productivity.
- **Continuous flow process**
Self-cleaning application.
- **Eliminates downtime**
Prevents blocking up.

Did you know?

That, the Auto-line filters can be used for anodes and cathodes filtration and even for cooling water to the production lines.

No need for human involvement for changing filter bags or getting in contact with the fluids in a dangerous area. The need for service intervals is also reduced to a minimum and a nonstop production is achieved.

Facts and regulations:

PED ATEX

CE ISO 9001
